With a super-deformed character model and a story that resonates with a tongue-in-cheek style, this year's second line of the genre-jumping hack and slash developed by the team at Moss feels less like a sequel and more like a continuation of something that started all the way back in 2005. But the Elden series doesn't operate like most RPGs. One of these big bad assassins is Corvus, who has, with the power of the Cloakgun on his belt, heard the call for a savior and is ready to answer. Corvus is the main protagonist in the latest Elden Ring episode. As a follow-up to the game's first original story, he joins Eli as he travels through the large and rich continent on his quest to rid the world of the forces that plague it with conflict. Eli with his Cloakgun Eli's Cloakgun is an RPG that distinguishes itself among its peers with a blend of humor, hype
